

## Birthday Parties

The minimum age for junior birthday parties is 8yrs and all drivers must be a minimum height of 132cm (4ft4in).

There is no maximum age but you need to be fit and healthy!

The most popular option for parties is the exclusive track use per hour.

We recommend 10 to 16 drivers per hour.

But smaller groups can enjoy more karting.

The party is split into smaller groups with each group going on the track consecutively throughout the set time. Generally each driver will have 2 to 3 sessions on the track. Printouts detailing fastest lap time, number of laps, average lap time are given at the end of each session on the track.

This option is ideal for Juniors, Adults or mixed age family groups.

All Junior karts can be speed controlled for added safety.

The cost of this option is £200/ hour.

For smaller groups ie. less than 8 drivers, then the practice sessions of 10, 15 or 30 (15 +15) minutes are ideal. These cost £10, £15 and £25 respectively.

For those requiring food then a party menu is available.

Tailored menus for any occasion are available on request.

We also fully licensed so if you are 18yrs and over you can enjoy a well deserved drink after your event! Hot and cold drinks and snacks are also available.

You are welcome to come and view our facilities and to discuss your requirements further.

For any further details please contact us.
